EXPERIENCE

Well Played Sports Pvt Ltd   Jan 2025 – Aug 2025
Full Stack Developer (Intern)   *Remote*

- Contributed to backend development of a real-time cricket analytics platform using **Node.js**, **Express.js**, **Sequelize**, and **MySQL**
- Built and optimized APIs for match highlights, player stats, and innings summaries with accurate handling of cricket-specific cases (WD, NB, LB, B)
- Improved data performance and maintainability by creating reusable logic modules and optimizing complex database queries
- Collaborated in Agile sprints via **Jira**, helping deliver key features like **live score updates** and **match visualizations**
- Enhanced the platform's reliability and value for players and coaches by ensuring real-time, accurate match data delivery

Renu Sharma Foundation   Sep. 2024 – Dec. 2024
Front-End Developer(Intern)   *Remote*

- Contributed to the development of a responsive web application using **React.js** for the frontend and **Node.js** with **Express.js** for backend integration
- Designed and implemented clean, user-friendly interfaces that improved usability and visual appeal
- Integrated RESTful APIs and used **JavaScript** and **MySQL** to manage and present real-time data effectively
- Worked closely with the development team to enhance website performance and deliver a smooth user experience

PROJECTS

Smart Home Solutions | *ReactJs, NodeJs, ExpressJs, Mongodb, AWS* | Github
- Developed a responsive web application to showcase home designs with filters and predictive pricing
- Integrated NLP-based search for faster design discovery and smoother UX
- Collaborated on frontend-backend integration, ensuring data flow through RESTful APIs
- Used AWS for image hosting and MongoDB for storing design data

Online Inventory Management System | *ReactJS, NodeJS, ExpressJS, MySQL* | Github
- Built an inventory system for an electronics shop, improving product tracking efficiency by 25%.
- Implemented CRUD operations for both admin and customer panels
- Enabled dynamic receipt generation and backend logic with NodeJS
- Designed a simple and user-friendly UI using React and CSS

Tailor Management System | *HTML5, CSS, JavaScript, ReactJS, MySQL* | Github
- Created a web-based system to manage customer bookings and payments
- Integrated SMS API to send automatic alerts, reducing manual work by 30%
- Used React Router DOM for navigation and MySQL for backend data
- Improved shop workflow and customer tracking with a clean UI

EDUCATION

G H Raisoni University
Bachelor of Technology in Computer Science   *2022 – 2025*

Government Polytechnic Miraj
Diploma in Computer Engineering   *2019 – 2022*

TECHNICAL SKILLS

Languages: JavaScript, SQL, Python, Java
Backend: NodeJs, ExpressJs, RESTFUL APIs, JWT, AWS
Frontend: HTML5, CSS, Tailwind CSS, ReactJs, React-Router
DOM **Database**: MySQL, MongoDB
Tools: Git GitHub, Postman, Eclipse EE, V S Code, Jira
